

## Relic's Coastal Collaborative™

Working Together To Keep Our Beaches Clean

*Our beaches are under threat. With trash washing up on coastlines from all angles, we need your help to implement a collaborative solution.*

Relic's Coastal Collaborative, a federally recognized 501C3 Non-For-Profit Organization, was founded with the mission of bringing together community members, municipalities, and local businesses, to collaboratively combat coastal pollution. **By providing beachgoers with clean up stations,** Relic's Coastal Collaborative helps to facilitate voluntary trash pick-up, with the goal of stimulating our community's engagement in maintaining our greatest local resource.

### How Can You Join Our Mission?

Relic is currently **seeking local businesses** who would be interested in an annual sponsorship of a clean-up station in their local community. Sponsorship supports station creation/installation, annual maintenance, and the expansion of our program.

### Why Should Your Local Business Sponsor a Station?

- 1 Year of Advertising Space at a High Demand Location (Color Allowed)
- Local Community Recognition
- Charitable Contribution Tax Benefits
- Support of a Growing, Local Environmental Cause

20" x 2"  
Advertising Space
